

Sample starting screens for fostercitytennisclub.org

Apr 4, 2025

A few points to note...

- The main menu needs to be reduced with the sub menu accommodating other links.
- I shortened it somewhat. Anyway, that can be easily adjusted after discussion. I wanted to try out a simple design for now.
- I focussed on three main kind of screens initially. All with a tile(s) approach so that responsive design can be accommodated easily, to enable views on smaller form factors like smartphones and tablets.
- I have created these sample screens for a laptop (15" MacBook Pro) and an iPhone (12 Mini, like I own...)
- These are just my starting ideas - I added, and edited a general screen background to enliven the template, but have stayed within traditional tennis colors of blue, yellow and light green hues. Also I created some simple graphics at the top (to replicate as Richard hits his awesome forehand...)
- All 'blue' text will be links, so if you go to the 'Board of Directors' page, a user can tap on the name and send an email.
- For a sample text page, I have copied from the current 'Improve your game' page; hence some text background has also seeped in. That can get cleaned up.
- In general, I am trying to keep the site clean and elegant, and simple enough to be viewed on all form factors easily. Hope it will help you all to get started on a discussion.

Landing page, as is generally visible right now.

Congratulations to the USTA Teams going to the Sectionals!

The FCTC is collecting clean, used tennis balls for recycling to senior centers, rehab centers and local schools. Most are used for the bottom of chairs and tables, but many are used with the seniors for exercise and therapy.

To donate, check with your USTA captain, who has ket to the Edgewater shed. We have a bin inside the shed for collection. Thanks for giving old balls a second life!

I had to adjust the photos a little for now, as they do not have the same aspect ratio. One can navigate to the other submenu links easily from the top slim tile without going back to the main menu at the top right.

Improve your game

USTA League

Improve your game

Do you love playing tennis but can't seem to improve your skillset? Do you want to find new ways of staying in shape for your time on the court? With tips, instructions, videos, pro tips and various articles each focused on a certain aspect of the game and cardio conditioning, you'll be able to perfect the sport and IMPROVE your tennis game.

Whether you're a beginner picking up a tennis racquet for the first time or a seasoned veteran looking to iron out some kinks in your game, there's something just for you.

Improve your tennis game with video tutorials, tips from the pros, cardio workouts and more that we'll add frequently. [Click here to see previous tips that have been archived.](#)

Be sure to check back often and most importantly, enjoy the game!

Landing page - iPhone 12" Mini. One may scroll down, keeping 'Announcements' fixed (as here), or not. Have to create the page for dropping the menu from the 'hamburger' icon below the tennis ball logo. Also the login page will be separate.

'Board of Directors' page - iPhone 12" Mini. It will show two photos side by side on a larger phone, like iPhone Max.
